

AYUSH BHARDWAJ

Mohali, Punjab | ayushbhardwaj1600@gmail.com | +91-9872883105 | [LinkedIn](#) | [GitHub](#)

Education

B.Tech – Computer Science Engineering (Data Science) • Chandigarh University, Mohali, Punjab

June 2024 – June 2028

Relevant Coursework: Data Structures & Algorithms, Database Management Systems, Machine Learning, Data Engineering, Business Intelligence, Software Engineering, Operating Systems, Computer Architecture & Organization

Experience

Full Stack Developer (Project) • Personal Project

January 2026 – March 2026

- Built a full-stack e-commerce platform using React.js, Next.js, and Zod schema validation supporting end-to-end product browsing and cart management.
- Implemented quick-add product modal with dynamic size/color selection, reducing product interaction steps by ~40%.
- Developed animated cart drawer with real-time quantity controls; integrated React Hook Form + Zod eliminating all runtime input errors.

Robotics Simulation Engineer (Project) • Personal Project

October 2024 – December 2024

- Designed and simulated a 6-DOF pick-and-place robot arm in CoppeliaSim automating object sorting across 3 zones with $\pm 2\text{mm}$ end-effector accuracy.
- Programmed inverse kinematics via Python API; reduced manual programming overhead by 60% through parameterized motion path scripting.
- Modeled joint torque limits, velocity profiles, and collision detection for physically accurate real-world simulation.

Skills

Languages & Databases: Python, JavaScript, HTML, CSS, MySQL, MongoDB

Frameworks & Libraries: React.js, Next.js, Node.js, Express.js, Pandas, NumPy, Matplotlib

Tools & Cloud: Power BI, AWS, Cloudflare, Git, GitHub, Cursor AI, GitHub Copilot, Claude

Soft Skills: Leadership, Teamwork, Strategic Thinking, Active Listening, Creativity

Projects

Pick-and-Place Robot Prototype • Hardware Build

July 2025 – September 2025

- Built chassis-based robot prototype with ultrasonic sensors for obstacle avoidance (~95% accuracy), object pickup, and autonomous relocation between positions.
- Integrated servo motors and sensor feedback enabling autonomous navigation and object transfer without manual intervention.

Personal Portfolio Website • HTML / CSS / JavaScript

July 2024 – September 2024

- Designed fully responsive portfolio showcasing 4+ projects with smooth scroll animations, interactive UI components, and sub-2s load time.

Pop Balloon Game • Python / Pygame

January 2025 – May 2025

- Developed interactive 2D game with real-time scoring, 5 progressive difficulty levels, and adaptive balloon speed/spawn scaling by milestone.

Certifications & Achievements

- Introduction to Data Science in Python – University of Michigan (Coursera) | February 2025
- The Structured Query Language (SQL) – University of Colorado Boulder (Coursera) | October 2024
- Red Bull Account Data Analysis & Sales Objections Training | 2024

Position of Responsibility

General Secretary – Sports Club • Chandigarh University

January 2025 – December 2025

- Coordinated events and competitions for 500+ members; managed scheduling and logistics for 10+ activities per semester.

Hackathon Team Leader • Chandigarh University

2024 – Present

- Led 4-member team in competitive hackathons: problem decomposition, sprint planning, task delegation, and final presentation delivery.
